*Airport Systems, Ground Resources,
Maintenance, Operations Control*

Vendor Invitation

Dear prospective vendor,

We would like to invite your company to participate at the **Airline Operations 2002** conference to be hosted by Alitalia Airlines in the picturesque city of Rome, Italy. The conference is scheduled for **20-24 May 2002**, and will draw participants from various airline functions, including airport systems, ramp control, aircraft and crew rescheduling, passenger re-accommodation, flight dispatch, flight planning, flight monitoring, weather data provision, ground to air communications, gate allocation, slot control, aircraft maintenance and operations control.

In addition to being a forum for technical papers and discussions, the conference serves as a trade-show where airlines can review products that meet specific needs. This year we are expecting about 100 delegates from 30 airlines. Last year we had 10 vendors showcasing their products. The attendees found the vendor presentations extremely useful and asked for an expanded vendor program. This year we have tentatively allotted two afternoon sessions for vendor presentations and demonstrations. Please review our tentative agenda, including our extensive social program (attached).

All vendors will pay a flat fee of USD \$1500 to participate at the conference. This entitles the company to booth space and a twenty (20) minute presentation on the technical agenda. Please note that *each company representative (limited to four delegates) will be required to pay a delegate registration fee* to attend the conference. The vendor fee does not cover delegate registration. If a company is interested in 'sponsoring' one of the social events, this is possible for an additional fee of USD \$2500 per event (see attached registration form).

You are cordially invited by:

Michael Clarke
